The reason for the post-ponement is that after the publicity which the matter has received in the Press in recent weeks, certain persons took the initiative of establishing a Committee of Honour to lend the event more importance, as well as to solicit support for the "Foundation Pro Sepulero Spinosas."

The composition of this Committee will, however, take some time, as on the one hand, in July many persons are already on holiday and on the other, the matter raises certain delicate points.

The Minister of Israel in The Hague, Dr. Eara Yoran, has been invited to join the Committee, but it is not yet certain whether he will accept.

Officer Dismissed

The Assistant District Superintendant of Police in the Tel Aviv area Mr. Ze'ev Steinberg, has been dismissed from his post by the Minister of Police on the grounds that he maintained contacts with the underworld beyond what his job called for. The dismissal takes effect today, though for some time previously, Mr. Steinberg, who was head of the Tel Aviv Detective Division, had been under house arrest.

It was said that only 15,000 cubic metres reached the copital yesterday while the city's abares needs are 40 per cent more, i.e., at least 21,000 cubic metres.

Mayor Gershon Agron recently met Mr. Mordecai Namir, the Minister, in an effort to impress upon him the urgency of finishing the reservoir.

And the Arabs are perhaps less well instructed than the sources which purvey information to Mr. Selwyn Lloyd. For one thing is quite certain. If they were as sure as he of the fact that the balance of power between Israel and themselves has not been seriously disturbed, they would not now be acting in defiance of the U.N., their pledged word and the peace hopes of the civilized world. Were the West to make arms available to brael and restors that balance plainly enough for all to see, the present troubles would speedily come to an end.
